Onice Cappucino Close Up

Due to the fact that all natural stone materials are products of nature, variations in characteristics such as color, shade and veining are to be expected, and photos provided are meant as an example only. Please call us to set up an appointment to view slabs.

All slabs vary in size. Feel free to contact us for approximate slab sizes.

Sealing natural stone is a benefit to both the installation and daily maintenance process; ask your Global Granite & Marble representative about sealing stone.
